I tung kit ma otime man tye kare me agiki i 1989, ma tito gob pa bikira lalar marac. Kadong, 1611, 1776, 1789, 1798, 1831, 1989, 1996, 2001, 2023 ki cik me Sande ma bino con, gin alama me yore weng ma kigamo ki adiera ni kityo pa Lubanga ma kicweyo kacel ki kityo pa dano pe tim richo. meno obedo Habakkuk ki John. I chapter TWO verse TWENTY i kitabu aryo weng, ceng 22 me October, 1844 kigamo. Acel oketo dwong i tic me atonement (at-one-ment) ma ocako i ceng meno, ki mukene oyaro Hekalu ma myero kiyweyo.

Ot pa Lubanga ma onwongo obino botone tutwal, tye calo ot pa Lubanga ma ki gogo piny ki cing gi ki twero me 'daily' (paganism) ki me 'abomination of desolation' (papalism). Ot pa Lubanga bene nywako cal pa Kiristo, ma en ot pa Lubanga ma opoto ento oyubo dwogo i cawa adek. En bene nywako cal pa ot pa Millerites, ma ki yubo i mwaka 46, cako i 1798 paka i 1844. En bene nywako cal pa ot pa dano, ma kicano ki chromosomes 46, ma gi tito kit pa jenetiki pa kom dano kede gitelo ne. Pe obedo bal ni sel weng i kom dano gityeko dwogo manyen ducu i cawa 2520 ka keken.

I i apok weng magi ma pa Lubanga pi ot pa Lubanga, ma nyutu tic pa Kristo me keto kacel kit pa Lubanga ki kit pa dano, kit pa Lubanga pi kare weng omako anyim kit pa dano. 1611 obedo anyim 1831. 1776 obedo anyim 1798. 1776 obedo anyim 1996. 2001 obedo anyim 2023. Jo Millerite gukeno Kristo oduyo i Kabedo Maleng Ma Loyo Weng. I acaki Lubanga oyubo dano.

Kombedi wa bi dok i pimo wa i kom alama adek me yoo 1776, 1789 ki 1798, ma nyutu kare me bedo atera ma nyutu calo ranyisi pa kare me goyo muhuri. Kare me acel, ma 1776 nyutu ne, Declaration of Independence, kede kare me Continental Congress aryo; ki kare me aryo, ma 1789 nyutu ne, Constitution, kede kare me Articles of Confederation paka i 1798.

Mung pa cal pa le, ma obedo gin atir ni wii ma aboro obedo pa wii abiro, kinenyo ne i kare aryo weng. Bene kinenyo ne i lamwaki me yoo ma adek pa lok meno, ento lamwaki meno tye komo ikom wi ma aboro, ma obedo pa wii abiro, kit ma kityeko ne ki teko pa Papa. Kare aryo me acaki nyutu kityeko pa wi ma aboro, ma obedo pa wii abiro, i piny me United States.

Amerika ma kikobo pire kene tye ki twol aryo; twol achiel orwate ki lacoo, ki twol mukene orwate ki dako. Lacoo en twero me polotik; en twol me Republikan. Dako en twero me dini; en twol me Purotesitanti. Kacel ki mano, kare ma kimio ki 1776, ki "Declaration of Independence", tye nyutu twol me Purotesitanti, pien me Lubanga cako anyim me dano cawa weng. Kare ma kimio ki 1789, ki "Constitution", tye nyutu twol me Republikan.

I mwaka 2020, twero me nyoka madit me kare man kombedi, ma me Satan ki ma pe gi yie i Lubanga, gikwanyo kwo pa cok aryo weng. Cok me Protestant ma adaa gikwanyo kwo i July 18, 2020, ci cok me Republican gikwanyo kwo anyim i November 3, 2020. I mwaka 2023, lami aloka aryo gicungo malo, ci piny ma onongo giyaro i kom rige gi ma otho ocako bedo ki miedo.

I mwaka 2023, tic ma agiki me goyo cing pa jo 144,000 ocake i kare ma agiki me kit ma otime pa piny. Kit pa Lubanga kombedi tye kicweyo kacel ki kit pa dano pi kare ma pe giko, ka jo ma tye atir i geno i nino ma agiki gicako rwate ki cal pa Kiristo pi kare ma pe giko.

I higa 2023, tic ma agiki me keto kacel Lacer ma oketo woko yot pa Lubanga kwede Gamente ma oketo woko yot pa Lubanga i piny pa leero ma owoto ki piny ocako. Tulatula me teko ma kiloro ne ki ofisa pa Rwot pa Roma, ma tye ki Lacer ma oketo woko yot pa Lubanga ma tye ka lalo i wie Gamente ma oketo woko yot pa Lubanga, kitye ka cweyo ne ci ki dwogo cwe cal pa leero.

Tem madwong pi jo ma kilwongo obedo tem me neno cako cal pa lewic, ma kicano ki “dwongi, latingi, olumi” kede “lolo pa piny” ma obino. Cawa me kitego obedo kare ma laloc weng otyeko maleng. I kare me yub ki 1776 oo i 1798, ma yaro cawa me kitego, onongo tye “lawir i iye lawir,” ma obedo but pa laloc ma Ezekiel oneno kun oneno i Kabedo Maleng Loyo Weng, i cawa me kitego pa jo 144,000. Gin lawir ma meno, Sister White onyutu gi calo “rwomre ma tek pa tim pa dano.” Kare me yub ki 1776 oo i 1798 onongo tye ki but manok pa gin “rwomre ma tek pa tim pa dano,” ma myero ki cano.

Gin acel tye ki ada ni Faransa me Rivilusyen obedo kit me Amerika. Piny aryo gi keto twero pa Papa i kom pa piny, kede piny aryo bene gi kwanyo ne ki kom woko. Piny aryo gi miyo twero meggi me lweny ki me cente me miyo tic en oromu. Piny aryo gi kwanyo woko yie meggi ma gicweyo ki cawa matidi me bedo Katolik. I piny aryo “earthquake” ocoyo gavumenti meggi ma gicweyo. Lok me con pa piny aryo tye ki kube ki 1789, pien i 1789, Rivilusyen pa Faransa ocake, kede Cik Maleng pa Amerika ocake tic.

Revolusyon pa Faransa onongo obedo pi mwaka apar. Napoleon Bonaparte onongo omako twero ikare me agiki pa Revolusyon pa Faransa. En obedo ladit me lwak ma lamal, ci i kinyi pa coup d’état pa en ma olare i ceng abongwen me dwe me Noveba, mwaka 1799, otimo rwom madit i gavumenti pa Faransa, ma omiyo obedo Konsul Mukwongo pa Ripablik pa Faransa.

I kare ma aryo i kare me yubo ma 1776 ki 1798, dano ma en obedo aboro (pe i rwom), ma oaa ki abiro, en John Hancock. En acel i bot pirisiden aboro i kare ma aryo ma kinyutu ne ki 1789 (higa me Revolusion pa Faransa). En pire acel i bot gin pirisiden aboro magi, ma bene onongo obedo pirisiden i kare ma acel, ma kinyutu ne ki 1776. I kit me poro pa lapor, en obedo aboro, ma oaa ki abiro.

En aye alama me kare me dano, pien kare ma acel nyuto kit pa Lubanga, eka en aye alama ma yubu kacel kare aryo (pa Lubanga ki me dano). Alama pa en obedo alama ma ngene tutwal loyo weng i tuk me dano, kacel onyuto mapol loyo kit me coc pa en ma ber tutwal.

Cing ma John Hancock oketo i Waco me Tyen pa America obedo cing ma ki ngeyo loyo weng i gin matime pa lobo. Cing mamegi ma madit ki ma neno dwong dong obedo cal me nyutu, ma nyutu Tyen pa America kede gamo woko pa koloni pa America bot loyo pa Britain. Hancock, ma ne obedo Ladit (President) pa Continental Congress i cawa ma Waco me Tyen kityeko keto cing i Mwaka 1776, ki waco ni oketo cing i nyinge madit atir me gwoko atir ni Rwot George me Adek romo kwano labongo lup me wang, ma nyutu dwong cwiny pa iye kede bedo atir pa iye bot dwon me Tyen.

Hancock obedo acel ki Piresidenti aboro i kare ma kinyutu kwede 1789, ento en obedo acel ki dano abiro ma obedo Piresidenti i kare ma kinyutu kwede 1776. En obedo Piresidenti ka kicoyo nying i Declaration of Independence. Hancock orwate kare aryo kacel ki coyo nying pa en keken, calo pa dano, ki en tye i lok mukato me acel kede i lok mukato me aryo. Lok mukato me acel nyutu kit pa Lubanga, ci me aryo nyutu kit pa dano, ci coyo nying ma orwate lok mukato aryo en aye coyo nying pa Lakit me Leb ma lamal, ma otiyo kwede gin me tic pa dano me oketo kacel kare pa Lubanga ma kinyutu kwede 1776 ki kare pa dano ma kinyutu kwede 1789.

I mukato me lobo, tye coc me nying mukene acel kende ma lwak ki coc me nying pa Hancock i kit me ngwec, kacel ki en bende obedo coc me nying ma rwate ki 1789 kacel ki Revolusen me Faransa. Coc me nying en tye ki kit acel pa cwiny matek ma Hancock onongo obedo gi tam me nyiso, kacel ki tye i mukato me Faransa.

I kom ngec ma lobo weng ki rwom pa cal, coc pa cing pa Napoleon Bonaparte tye ki rwom ma cwiri kwede pa John Hancock, entit i kit pa histori ki kit me kwo ma mapat. Napoleon, laco me lweny ki me politike ma ladit pa France, oweko cal madit i histori pa Europe ki pa lobo weng, lapit loyo i cawa me Lweny me Napoleon. Coc pa cing pa iye, ma pol gicoyo ne ki kit ma dwong ki ma peka, o bino bedo cal pa twero ma rweny tek pa iye ki lok madongo ma oyal weng i Europe, kacel ki lok pa cik ma gicoyo calo Code me Napoleon.

Calo keto nying pa Hancock, ma nyutu keco ki twero pa Briten kacel ki yeny me rwom pa kene pa Ameriki, keto nying pa Napoleon nyutu kit mapat pa pe lworu ki ludiro—dwoko odoco lim me lobo pa Yurob i yore me polotiki, ki yubu cik me ribulocen pa Faranse. Keto nying magi aryo gin alama me kit ma ngat magi otyeko tye iye i dwoko bedo me anyim pa piny pa gi, ki nininge ma maloyo me ticegi i gin mukato me lobo weng.

Ka Ezekiel oneno gurudumu i iye gurudumu, ma nyutu cako-ocake me tim pa dano ma pire tek i gin mukato pa cawa me tero muhuri pa 144,000, acel ki gurudumu magi onongo kicoyo calo gurudumu i 1789, ka Cik Madit pa United States, lim ma tye ki loker pa Republican kede loker pa Protestant, onongo ogwene kede France, lim ma tye ki loker pa Misri kede loker pa Sodom.

Cako ki 1789, nyo i 1799, Faransa oyaro matek ki “piny-ocok” ma ocake ki leev madwong me pe yie i Lubanga ma oa i tweng ma pe tye but. I cawa me “sealing” pa jo 144,000, 1789 nyutu kare ma ocake i July 18, 2020, ka leev madwong me pe yie i Lubanga ogolo piny kede ogwoko rieny pa Protestantism me adwogi, ci i November 3, 2020 leev madwong me pe yie i Lubanga bende ogolo piny kede ogwoko rieny pa Republicanism. “Wheel” pa 1789 nyutu “wheel” pa 2020, kama nyutu kwede July 18 (kit pa Lubanga), kacel ki November 3, 2020 (kit pa dano).

Cal pa Lubanga, kit ma dano tye ka yaro, nonge i cal aryo ma lube loyo i piny. Cal aryo magi kicobo gi higa 1789, kede gi yaro twero ma keto Twero pa Papa i kom pa piny, ci gikwanyo ne woko ki komo. Higa 1789, ka obedo i tung’ me gin adiek ma nyutu cal pa Lubanga me aco, tye ki cal me “koloni apar adek” kacel ki “rebellion” me “French Revolution.”

Kit ma ocake i 1789 ki otyeko i 1799 nyutu rek pa Revolution pa Faransa, ki namba apar nyutu tem. 1789 obedo leta mukwongo me ‘truth’, ki 1799 nyutu leta agiki pa kare i Faransa. Onongo kare ma i tung kicano ki kwallo i tho pa rwot pa Faransa i 1793, pien jo piny ogamo bot lwakne pa rwot ma tye ki lacim.

Enjili me kuc ma France okwanyo woko, obino kikwanyo woko ki pire piny maber tutwal; adwogi ma rac tutwal obedo. I ceng 21 me Januari, 1793, higa 258 ki cing acel ma keken ma otyeko ket France ma tutwal i mwonya pa Jo me Yubo, cok mukene, ki kite ma pat tutwal, okato yore pa Paris. *The Great Controversy*, 230.

1789 oketo alama me lweny me rwako twero pa leta namba apar adek pi gin matungu aryo me Amerika ma kiketo kacel, ki pa leta namba acel pi gin matungu aryo me Faransa. Leta matye i tung cen pa Faransa ne en 1793, kare ma ki golo wic pa rwot pa Faransa, ki Napoleon onyutu leta me agiki ka ocake loyo gamente i 1799. Mak me "ada" i histori me goyo piny Faransa, ma ki nyutu ki 1789, 1793, ki 1799, obedo nger me poroc ma kikobo kacel ki nger me poroc me 1776, 1789, ki 1798.

Lok me kwo aryo tye ki coyo nying aryo ma ngene tutwal i lok me kwo pa dano. Omiyo giyubo coyo nying pa Lubanga me 'ada' ki coyo nying aryo pa dano. Tayara aryo tye rwate ki cuk me coc ma apar adek i kare me ket cing pa 144,000, ma obedo kare ma cako ki guro pa lajwero aryo i 2020, nyaka i kare ma gin ocung i wii cinggi i 2023, ma kiketo kite iye ki 7 October, 2023.

Wa bi mede pwonya wa i coc me anyim.
