Takagumisa chinyorwa chapfuura tichinyora tichiti, “Ndima 10–15 dzinimirira hondo nhatu dzinorwiwa pachinzvimbo cheumwe, dzinoitwa namambo wokumusoro, iro simba roupapapa, kubva muna 1989 kusvikira pamurayiro weSvondo.” Hondo nhatu idzi dzinotanga nokuzivikanwa kweUnited States mundima 40 se “ngoro, zvikepe, navatasvi vamabhiza.”

Hondo yehondo rinotevera rechitsotsi, rinimirirwa nendima 11 uye nekuzadzika kwaro kwenhorondo paHondo yeRaphia muna 217 BC, raiva pakati paPtolemy IV Philopator, mambo wokumaodzanyemba weIjipiti, naAntiochus Mukuru, anonziwo Antiochus Magnus, weHumambo hweSeleucid. Antiochus akanga azadzisa ndima 10 paakatsiva Ijipiti nokuda kwokukundwa kwoumambo hwake hwokumusoro uye kurasikirwa nezvinhu zvahwo, achitora zvakare nzvimbo dzose dzakanga dzambotorwa noumambo hwokumaodzanyemba kubva kuumambo hwake. Akazviita, asi akamira pamuganhu weIjipiti, nokudaro achizadzisa ndima 10 uye achifananidzira 1989.

Asi vanakomana vake vachamutswa, uye vachaunganidza hondo zhinji dzine simba guru; uye mumwe achauya zvirokwazvo, achafashukira, uye achapfuura; ipapo achadzoka, agomutswa zvakare, kusvikira panhare yake. Danieri 11:10.

Hondo yechipiri yechiproxy yaiva Hondo yeRaphia. Raphia rinoreva nyika yemuganhu. Nzvimbo iyoyo yehondo inoratidza pano pakanga pagumira Antiochus pakupinda kwake kwekare kunotaurwa mundima 10. Hondo nhatu dzechiproxy idzi dzinotongwa nechokwadi, mupfungwa yokuti hondo yokutanga yechiproxy inowirirana nehondo yokupedzisira yechiproxy. Hondo dzose nhatu—ndima 10, 11, uyezve hondo yechitatu yendima 13–15—dzakarwiwa nomunhu mumwe chete wenhorondo pakuzadzika kwadzo kwokutanga. Antiochus Magnus aripo muhondo imwe neimwe pahondo nhatu idzi, achidzibanidza nechiporofita kuita mutsetse mumwe. Antiochus anokunda muhondo yokutanga neyokupedzisira, asi kwete iri pakati, umo mambo wokumaodzanyemba anokunda.

Sezvo Raphia richireva nyika yomuganhu, ndizvo zvinoitawo Ukraine. Hondo yechipiri inorwiwa nevamiririri, yakatanga kuzadzikiswa neHondo yeRaphia, zvino yava kuzadzikiswa muhondo yeUkraine. Vladimir Putin ndiye mambo wokumaodzanyemba, mudzimu wechiporofita unobva kumambo wokutanga wemazuva ano wokumaodzanyemba, Vladimir Lenin. Putin akaramba achitaura kuti kupindura kweRussia kuUkraine kwakavakirwa pachibvumirano chinopikiswa chokuti, pakubatanidzwazve kweGermany, NATO yaisazowedzera kupinda mberi munyika dzaimbova dzeUSSR. Chikonzero chaPutin chinofananidzira chaPtolemy mundima 5–9 uye chaNapoleon muna 1797. Madzimambo ose ari matatu okukumaodzanyemba anoruramisa zviito zvawo zvinopesana namambo wokuchamhembe achizvitsigira pachibvumirano chakaputswa.

Maererano na Isaya 23, hure reTire, rinomirira simba repapa, raizokanganwikwa kwemakore makumi manomwe, samazuva amambo mumwe chete—nguva yakaratidzwa kakawanda kuti ndiyo nguva inotonga ushe hwechitanhatu hwechipozofita cheBhaibheri, chikara chepanyika chaZvakazarurwa 13 (United States).

Zvino zvichaitika nezuva iro, kuti Tiro richakanganwikwa kwemakore makumi manomwe, zvinoenderana namazuva amambo mumwe; pakupera kwamakore makumi manomwe Tiro richaimba sehere. Tora rudimbwa, ufunge-funge muguta, iwe hure rakanga rakanganwikwa; ridza zvinonzwika zvinofadza, imba nziyo zhinji, kuti urangarirwe. Uye zvichaitika pakupera kwamakore makumi manomwe, kuti Jehovha achashanyira Tiro, naro richadzokera kumubayiro waro, uye richaita upombwe noushe hwose hwenyika pamusoro pechiso chenyika. Isaya 23:15–17.

Nthawi yophiphiritsa ya zaka makumi asanu ndi awiri imayambira m’chaka cha 1798 kufika ku lamulo la Lamlungu, lomwe ndi mbiri yoimiridwa ndi vesi 40. Huleyo saonekansa kachiwiri kufikira kumapeto kwa zaka makumi asanu ndi awiriwo, kapena pamene lamulo la Lamlungu layandikira. Chifukwa chake, nkondo ya mikangano itatu ya m’mavesi 10–15 ikuchitidwa ndi nthumwi m’malo mwa mphamvu ya upapa, pakuti iye waiwalika mwa uneneri m’nthawi imenyi.

Mune hondo dzekutanga nedzekupedzisira dzevamiriri, mambo wokumusoro anokunda mambo wokumaodzanyemba. Muhondo iri pakati, mambo wokumaodzanyemba anokunda mambo wokumusoro. Hondo yeRaphia ndiyo yaiva kuzadzikiswa kwokutanga kwenhoroondo kwevhesi 11, uye vhesi yacho pamwe chete nekuzadzikiswa kwadzo kwenhoroondo zvinoumba zvapupu zviviri zvinofanira kubatanidzwa nendima dzinofambirana dzokutonga kweRoma yepapa kwemazuva matatu nehafu euprofito. Naizvozvo, ndima mbiri dzeMagwaro mukati maDhanieri 11, dzichiperekedzwa nokuzadzikiswa kwadzo kwenhoroondo, dzinoratidza pachena hunhu hweuprofito hwehondo yenyika yomuganhu hwevhesi 11, yakatanga kuzadzikiswa paHondo yeRaphia uyezve ikazadzikiswazve panguva yokuguma muna 1798.

Mitsara iyi yeuchapupu inotsigira kuti Vladimir Putin ndiye Vladimir wokupedzisira wamambo wezasi wemazuva ano. “Vladimir” rinowananzotsanangurwa richinzi rinoreva “mutongi wenyika,” asi shoko rokuti \*mir\* rinorevawo nenzira yakarurama kuti “nharaunda.” Nokudaro, Vladimir rinoreva “mutongi wenharaunda,” kana kuti “mutongi wechiKomonisiti.” Putin anotsanangura kupindira kwake muUkraine sechakavakirwa pachibvumirano chakaputswa chaibata zvinomunetsa pamusoro pokupindira kweNATO kupfuura miganhu yakanga yabvumiranwa pashure pokubatanidzwazve kweGermany. Mafambisirwo aPutin akanangana neNATO neEU zvakafanana nokunangana kwaanoita naZelenskyy neUkraine. Kupindira kweNATO neEU munyika iyo Putin anosimbirira kuti yaifanira kuramba isina NATO kunoenzanirana nokutsamwa kwaPtolemy apo mambo weSeleucid akaisa parutivi muchindakadzi weEgipita waakanga aroora kuti adzokere kumudzimai wake wokutanga. Chibvumirano ichocho chakaputswa chainongedzera mberi kuChibvumirano cheTolentino chakaputswa muna 1797. Muna Danieri 11, apo mambo wezasi anokunda mambo wokumusoro, zvinobatanidza chibvumirano chakaputswa.

Chibvumirano ichi chakatyokwa chine chekuita nekusada kweEU kudzora kuwedzera kweNATO kupfuura miganhu yayo pakubatanidzwazve Germany. Mupfungwa iyi, Putin, mambo

wokumaodzanyemba, ari muhondo yokurwisana namambo wokuchamhembe, anomiririrwa nesimba rake rinomumirira. Sokungofanana nokuti maNazi eHondo Yenyika II akanga ari mumiriri weChechi yeRoma Katurike, maNazi eUkraine anova chiratidzo chehondo yechipiri yomumiririri yendima 10–15. Hondo nhatu dzenyika nehondo nhatu dzomumiririri—uye mumitsara yose iri miviri, maNazi ndivo mumiriri weChechi yeRoma Katurike panguva yehondo yepakati.

Mukuzadzikiswa kutatu kwepakutanga kwenhorooondo kwehondo idzi dzevamiririri, Antiochus Magnus akanga ari muhondo imwe neimwe. Zvakagaroratidzwa kakawanda kuti mavambo ezita rokuti “Antiochus” pamwe chete nechiratidzo chakabatanidzwa noushe hweSeleucid samambo wokumusoro zvinoratidza Antiochus sechiratidzo chaantikristu—papa weRoma. Asi munhorooondo yehondo nhatu dzevamiririri, hure reTire rinokanganwika, saka chiratidzo che“papa” chinomirirwa muzita rokuti “Antiochus” chinomirira simba rake remumiririri. Muhondo yokutanga neyokupedzisira, iUnited States iri pachena ichiitira Roma zvinangwa zvayo. Mundima 11, simba romumiririri ndirwo Nazism yeUkraine, asi kwaiva uye kuchiri ngarava nengoro dzeUnited States zvakatsigira Zelenskyy muhondo. Pamusoro penyaya yehondo yechipiri yevamiririri, United States yakavanzika, sezvakaita papa mukati memakore makumi manomwe aIsaya 23. United States yakavanzika munhorooondo chaiyo umo inoumbiridza hunhu hwose hwechikara, zvichiita kuti, muchiporofita, zvive zvakafanira kuti, kana hondo yechipiri yevamiririri yatanga, United States ifukidzwe nesimba romumiririri reNazism muUkraine, kunyange ichiramba iri simba rechiuto neroupfumi rechikara chenzyika rinotsigira Ukraine kusvikira pakuparara kwavo.

Xana hosi wa le dzongeni a ya eBabilona kutani a teka hosi ya le n’walungwini yi va khumbi, naswona na loko Jenarala Berthier a teka papa a va khumbi, u nghene hi ku kongoma eVatican, leswi swi kombisaka leswaku nyimpi ya Ukraine yi ta hela hi ku hlula ka Putin hi nkarhi lowu ku nga ha riki na ku lwisana kwihi na kwihi loku humaka eka Ukraine. Mfumo lowu Ptolemy a wu tekeke a ku ri Babilona, naswona mfumo lowu Napoleon a wu tekeke a ku ri Babilona ya moya. Hikwalaho, mfumo wa Zelenskyy wu yimeleriwa hi lava va nga ehansi ka yena lava n’wi nyikaka nseketelo. Leswi sweswi Trump a susile nseketelo wa makalichi, va gadzaka tihanci ni swikepe swa xivandzana xa misava, nseketelo wa Ukraine i EU, ku nga wona ntlawa lowu hi woxe lowu nga swi rhandzangiki ku yingisa swivilelo swa Putin malunghana ni ntwanano lowu tshoviweke mayelana ni ku nghenelela ka NATO.

Huzivi hunotungamirira ma-eurocrat eEU ihwo hwechimurenga cheGreenpeace. Nokuda kwechikonzero ichi, Zelenskyy anoreva kuti, “girinhi.” Zelenskyy ndiye musoro wekufananidzira wevanokurudzira hondo veEU vanotungamirirwa neajenda yepasi rose yeupenzi yezvakatipoterredza. Kana hondo yeUkraine yapera, Putin achapemberera kwete kukunda Ukraine chete, asiwo EU yose neNATO.

Hino basi, vita vya mawakala vitatu vina alama ya ukweli. Katika vita vya kwanza na vya mwisho vya mawakala, mfalme wa kusini hushindwa kupitia muungano kati ya mnyama wa baharini na mnyama wa nchi wa Ufunuo kumi na tatu. Hapo mwanzo, ushindi wa mfalme wa kaskazini uliletwa kwa njia ya muungano na papa mhafidhina wa Vatikanu I, ambaye katika muktadha wa siri za Fatima za mapokeo ya Kikatoliki ndiye papa mweupe au mwema. Papa wa sasa, ambaye

wakati ninaandika haya yuko katika kitanda chake cha mauti, ni papa wa Vatikano II, mwenye mielekeo ya kiliberali, ambaye katika muktadha wa siri za Fatima ndiye papa mweusi au mbaya.

Vhesi regumi neina chinoratidza kuti apo “vapambi vavanhu vako” vanozyikudza, vozowa, vanopinda munhoroono yechiporofita, chiratidzo chinosimbiswa. Mukuzadziwa kwemavhesi gumi nematatu kusvika kugumi neshanu muHondo yePanium muna 200 BC, Roma yechihedheni yakazvipinza munyaya dzaiva nechokuita nehondo iyoyo chaiyo. Mumavhesi matatu anotaure nezveHondo yePanium, vhesi regumi neina rinoratidza kuti chiratidzo chinosimbiswa neRoma.

M’nyanja ya ku Panium ya mbiri, papa woyera wosamalira miyambo wa Vatican I adzalumikizana ndi womaliza mwa apurezidenti asanu ndi atatu amene anayamba m’nthawi ya Reagan, amene poyamba anapanga mgwirizano ndi papa wosamalira miyambo wa Vatican I. Iwo anachita zimenezi mu 1989 kuti agwetse USSR yakale, ndipo pa mapeto adzachitanso zimenezi kuti agwetse wolamulira womaliza wa ufumu womwewo.

Mu makore aReagan, uye kubudikidza nemubatanidzwa waPope John Paul II neUnited States of America, John Paul II akasvika pakutenda kuti ndiye aiva papa akanaka wezviprofita zveFatima. Achikurudzirwa nechivimbo ichocho, akatanga kufamba nyika yose achisimudzira zvaainzwiswa kuti kwaiva kuzadzikiswa kwezvakafanotaurwa neFatima. Mukuita saizvozvo, akava papa akafamba zvikuru kupfuura vose munhoroono, uyewo papa akazivikanwa zvikuru kupfuura vose nguva dzose, sezvaakazadziwa chiprofiti cheZvakazarurwa 13 chekuti kwaizova nenguva apo nyika yose yaizoshamiswa nechikara. Chimiro chaPope John Paul II pachena chinomiririra papa anochengetedza tsika dzeVatican I anopinda mumubatanidzwa nemutungamiri wekupedzisira weUnited States of America.

Naizvozvo, chimwe chezviratidzo zvuoprofita zvapapa wechimanjemanje waReagan ndechokuti pane panguva apo mufananidzo wake weruzhinji unocherechedzwa sechiratidzo chenzira. Chiratidzo ichocho chiri mundima yegumi nechina, apo vapambi vavanhu vako vanosimbisa chiratidzo. Papa John Paul II anozadziwa chimwe chiratidzo chouprofita chokuti ndiye papa akashamiswa nenyika yose, nokudaro achiratidza mberi kuna papa waVatican I wekupedzisira kwenguva, anochengetedza tsika, anopinda mumubatanidzwa naTrump. Izvozvo pazvinoitika, chiratidzo chinosimbiswa, uye chinosimbisa chiratidzo ndechokuti papa anozvipinza amene munhoroono yePanium negore ra200 BC.

Kutanga kwavatumgamiri vasere kunoratidza kuguma kwavatumgamiri vasere, uye nguva pfupi mutemo weSvondo wendima yegumi nenhanhatu usati wauya, hure reTire rakanga rakanganwikwa rinodzokera munhoroono yakazaruka parinumba mubatanidzwa nemumwe wake waReagan, Donald Trump. Pamwe chete, sezvinomiririrwa nemubatanidzwa waAntiochus naFiripi weMasedhonia, vanowisira pasi chizvarwa chokupedzisira choushe hwokumaodpanyemba, sezvinomiririrwa namambo mwana Ptolemy. Mwana muchiporofita cheBhaibheri chiratidzo chechizvarwa chokupedzisira, uye mushure mehondo yeUkraine, Putin achadzokorora nhoroono yamadzimambo okumadokero ayo anosimudzirwa nokukunda kwehondo obva arasika munhamo yorudzi rwakati yechechi nehurumende.

Paniyamu ine uchapupu huviri hunoratidza sungano ine mativi maviri, uye muzvinorehwa zviviri izvi sungano yacho inomiririra kubatana kunoratidza ukama hwehutongi hwakatevedzana pakati pemapato maviri. Sungano yaiva pakati paFiripi naAntiochus yaiva yehurongwa, yakanangana nokudzivisa simba rePtolemy nereRoma kumabvazuva kweGungwa reMediterranean. Zvisinei, kushandira pamwe kwavo kwakanga kusina kutarisana neHondo yePaniyamu pachayo—Antiochus akaita mushandirapamwe uyu ari oga, pasina kubatanidzwa kwakananga kwemauto aFiripi. Basa raFiripi rakanga riri rokusiri kwakananga zvikuru, achipa rutsigiro rwezvematongerwo enyika nerwehurongwa nokubata vakabatana neRoma nevePtolemy muGreece nomuAegean, zvichiita kuti Antiochus akwanise kutarisa kuCoele-Syria. Vanyori venhoroono vose vanobvuma kuti Antiochus ndiye akanga aine simba guru musungano iyi, uye kuti ndiAntiochus oga akanyatsorwa hondo yacho. Sungano yavo yaibata nzvimbo yakafara zvikuru yakanga yakabatana noumambo hwaimbova hwaAlexander. Nokudaro, sungano yacho ine mutungamiri mukuru nomutevedzeri ari pasi pake, sezvinomiririrwa nezita rokuti Caesarea-Philippi, iro raiva zita rePaniyamu panguva iyo Kristu akafamba pakati pavanhu. Naizvozvo Caesarea-Philippi rinowirirana naAntiochus naFiripi, nokuti Caesari ndiye akanga ane simba guru musungano inomiririrwa naKesari Agasto pamwe chete naHerodhi Firipi tetrarch.

Izwi rinoti “Tetrarch” rinoreva mutongi wechikamu chechina. Kesari akatonga umambo hwose, uye Firipi akatonga chikamu chechina chenyika, nokudaro achiisa chiratidzo chaFiripi muukama hwemukati muzvibvumirano zvePanium neKesaria-Firipi. Muna Herodhi Firipi tinoona chiratidzo chemitsetse miviri yeropa, iyo yose iri zviratidzo zveukama hwesungano hwakaputsika naMwari. Tinoonawo maungira echikamu chimwe chete muzvina chekupatsanurwa kwoumambo hwaAlekizanda kuita zvikamu zvina, kana kuti vatetrarch vana. Firipi rinoreva mudi wemabhiza.

Pa Hondo yePanium, iyo inozadziwa pakuguma kwehondo yeUkraine, Antiochus Magnus, iyo United States, ichakunda Russia uye ichapinda mumubatanidzwa nemutambi muduku anomiririrwa naPhilip. Mutambi muduku uyo achabatanidzwa, asi kwete zvakananga muhondo. Hondo yacho ichava pakati peUSA naPutin, zviriri pachena yakabatana zvakananga negakava rechitendero rakabudiswa nokutsamwa nokuzvikudza kwaPutin, sezvinoratidzwa navose vari

vaviri Ptolemy IV Philopator mushure meHondo yeRaphia, uye namambo Uziya weJudha. Ptolemy naUziya vaiva madzimambo ekumaodzanyemba akasimudzirwa mukuzvikudza nokubudirira kwavo kwehondo, avo vakazobva vashuva kutora basa dzvene raifanira kuitwa navaprista chete. Uziya akagamuchira maperembudzi nokuda kwekuedza kwake, uye Ptolemy, akatsamwa kwazvo, akauraya vaJudha 50,000 muAlexandria.

Vesi regumi netatu rinoratidza hondo iri pakati pechizvarwa chokupedzisira chamambo wemazuva ano weungano, kana kuti wechikomunizimu, Russia yaVladimir Putin, neUnited States of America. Trump anokunda muhondo iyoyo, asi anozviita aine mubatsiri anobva kuchikamu chechina choumambo, uyo asiri iye ari muhondo yacho pachayo. Tava pedyo nokupera kwevesi regumi nerimwe sezvinopupurirwa nezviitiko zviru kuitika zvino. Putin achakunda pamusoro peUkraine, sezvinomiririrwa neRaphia. Ipapo achabva atanga kuparara kwake kunopfuurira, sezvinomiririrwa naUzia kuiswa muimba kusvikira pakufa kwake, nokuda kwemaperebudzi. Mushure mokukunda kwake paRaphia muna 217 BC, kutonga kwaPtolemy IV Philopator kwakadzikira nokuda kwouori, kuzvinyima zvokuzvifadza, uye kuvimba navanachipangamazano vasina kutendeka. Akafa muna 204 BC, zvichida akaurayiwa kana kuisirwa muchetura navashumiri vake, Sosibius naAgathocles, sechikamu cherangano yokusimbisa simba nokuda kwomwanakomana wake muduku, Ptolemy V. Kuguma uku kwaiva nemhirizhonga kunoratidza kusagadzikana namanomano zvaiwanzoitika mudzimba dzoumambo dzechiHellenistic, zvichiratidza shanduko huru mukuderera kweIjipiti yevaPtolemy.

Sifa ya utimilifu wa kiroho wa mfalme wa kusini, amba ulifanishwa na utimilifu wa kihalisi uliotukia katika pambano la kutawala ulimwengu baada ya kifo cha Aleksanda, ni “mapinduzi.” Ufaransa huwa mfalme wa kusini wa kiroho katika kipindi cha Mapinduzi ya Ufaransa. Mfalme wa kisasa wa kusini, Urusi, alizaliwa katika Mapinduzi ya Urusi. Falsafa iliyoanzishwa katika Mapinduzi ya Ufaransa ilipokomaa kutoka katika machafuko ya Mapinduzi ya Ufaransa hadi kufikia ukomunisti wa mapinduzi ya Kisoviet, hilo ni sifa ya mfalme wa kusini. Ukomunisti ulienea duniani kwa njia ya mapinduzi.

M’masiku ano, CIA kupyolera mu kugwiritsa ntchito mabungwe osakhala a boma yagwira ntchito yogwetsa mayiko padziko lonse lapansi, ndipo dongosolo la pa sitepe ndi sitepe limene agwiritsa ntchito mobwerezabwereza ndi limene limatchedwa ma color revolutions. Mfumu ya kummwera ndi mphamvu ya chinjoka, ndipo a globalists nawonso ndi mphamvu ya chinjoka, ndipo ma color revolutions a CIA ndi zizindikiro za mphamvu ya chinjoka. Mbiri ya France monga mfumu ya kummwera ya uzimu ili ndi mbiri yapadera imene imasonyeza mapeto a mzere umenewo wa uneneri.

Mhedziso iyoyo inomiririrwa naNapoleon. Chimurenga cheFrance chinoratidza kutanga kweFrance samambo wokumaodzanyemba, uye Napoleon anoratidza kuguma kwacho. Vanyori venhoroondo vanozivisa nhevedzano yematanho akatungamirira Napoleon kuWaterloo yake, nokudaro vachizivisa kuguma kunofambira mberi kwamambo wokutanga wokumaodzanyemba womweya, zvichipesana neBhabhironi naBherishazari vakatorwa nousiku humwe chete. Vladimir wokutanga wamambo wemazuva ano wokumaodzanyemba, Vladimir Lenin, akafa mukati menguva yemakore maviri kubva kunhevedzano yesitiroko. Vamwe vanofungidzira kuti Joseph

Stalin akamupa muchetura, sezvinongoitawo vamwe vachifungidzira kuti Ptolemy IV akaisirwa muchetura navarairidzi vake. Kuguma kwamambo wemazuva ano wokumaodzanyemba, sezvinomiririrwa neSoviet Union, kwakaitwawo nechimurenga.

Umbhikisho eMoscow olwaholela ekubhujisweni kwe-USSR kwakuwukumelana okukhulu komphakathi ngesikhathi se-August 1991 Coup (19–21 Agasti 1991). Lo mcimbi, owawugxile ekuvikeleni i-White House nasekuholeni kukaBoris Yeltsin, wawubhidliza ngokuqondile ama-hardliner aseSoviet, waveza ubuthakathaka bombuso, futhi washeshisa ukuwa kwe-USSR. Nakuba imibhikisho yangaphambilini eMoscow (isb., 1987–1990) kanye neBaltic Way (1989) kwakhe umfutho, imibhikisho ka-Agasti 1991 yaba yiphuzu eliyinhloko lokuguquka eMoscow, yaholela ekuqothukeni kweSoviet Union ekupheleni kuka-1991. Ukuqala kweRussia njengenkosi yaseningizimu kuqala futhi kuphele ngenguquko. Ukuphela kwe-USSR kwakuwukuhlakazeka okuqhubekayo kombuso, njengoba kwaba njalo ngoPtolemy, u-Uziya, uNapoleon, ngisho noVladimir Lenin. Ukuphela kukaPutin kuwukuwa okuqhubekayo, okuqala ngokushesha nje lapho impi yase-Ukraine isiphelile. Ukuphela kwakhe kulethwa eMpini yasePanium, lapho i-USA ithatha ukulawula umbuso, kuyilapho ithola ukwesekwa kumlingani ongekho empeleni empini.

Tichaenderera mberi nemitsara iyi munyaya inotevera.
